Custodian of a Global Vision

A WORD FROM THE PRESIDENT

Jean Héder Petit-Frère, D.Min., CEO

In 1992 Shabach Ministries International (SMI) was started after a vision I had about the potential of my home country, Haiti. I saw that Haiti could rise out of the despair, poverty, and corruption that it was entrenched in and become a nation of justice, truth, and prosperity if only the people would repent and change the way they think. I believe that change cannot happen in a nation unless the mindset of the people changes first. In other words, the change must come from the ground up.

In 1993 SMI launched Family Tabernacle of Praise (FTL). FTL was our first church and has grown to over 1,200 members. The ministry places a great emphasis on building strong family units and raising up leaders to be willing agents of change in the transformation of their nation.

As a ministry we strongly believe that education is a necessary exercise for bringing personal and national change. Without knowledge and the ability to think for themselves the next generation will become the pawns of the corrupt. This has led us to establish five schools (three grade schools, one school for the deaf, and a leadership training institute). Even though the tuition we charge the students is less than what it costs to educate them, we know that it will be worth the expense when, in the future, they become responsible and dignified citizens.

The vision doesn't stop there. SMI offers entrepreneurial classes, radio broadcasts, food distribution programs, and much more. Through these and other programs we are seeing the hearts and minds of the people change and the nation is being transformed for the better.

EXTRACT OF OUR DECLARATION

Our desire is not to receive the accolades of men for the work we do, but rather to leave a divine heritage in our country that will enable her to dominate in the affairs of this world.

We declare that no longer shall Haiti be known as a country of beggars, always extending a hand and soliciting help, a country of idlers and the unemployed, a country of voodoo and tricksters, but instead it shall be known as God's country, a prosperous and honest nation where there will be gainful employment available to all, a country with an entrepreneurial spirit that boasts a modern education system, a country made up of strong family units, that is stable spiritually, socially, economically and politically, a country whose name alone attracts investors, and a country that is respected among the nations, where Christians understand their role and churches are very strong.
